COMPREHENSIVE **COVID-19 Solutions**

Powered by PrescribeWellness

Transform your practice into a healthcare destination through comprehensive **COVID-19 pharmacy solutions**

Filtering Capabilities

Target COVID-19 vaccination-eligible patients within moments through advanced filtering capabilities.

COVID-19 Patient Communications

Simultaneously send voice and text communications to notify patients of COVID-19 vaccine availability, or any other custom message.

IIS Reporting

Leverage new fields within the PrescribeWellness solution designed to ensure compliance with COVID-19 vaccination requirements - including reporting to your state's IIS within 24 hours.

Contact-free Vaccination Intake & Scheduling

Introduce convenience and safety through online pre-screening and appointment scheduling.

2nd dose administration

The PrescribeWellness solutions enables pharmacists to:

- Schedule 2nd dose appointments with a Custom Calendar
- Identify patients in need of the 2nd dose (*manufacturer-specific to differentiate 2nd dose timeframe*)
- Engage patients through targeted patient communications and effective reminders
